# TABLE OF CONTENTS

<b>1. Winding Insulating Materials</b>	<b>1.9 Types and Shapes of Winding Wires</b> 28
1.1 Electrical Properties..... 2	1.9.1 Round Wires: .....28
1.1.1 Electrical Resistivity .....2	1.9.2 Rectangular straps.....28
1.1.2 Dielectric Strength .....3	1.9.3 Stranded wires .....29
1.2 Classification of Insulating Materials ..... 3	1.9.4 Gauge Plate.....30
1.2.1 Classification according to substances and materials .....3	1.10 Details of Winding.....31
1.2.1 Classification according to temperature .....4	1.10.1 Details about the Winding Coil...31
1.2.3 Characteristics of a Good Insulating Material.....5	1.11 Different Shape of Slots ..... 33
1.3 Insulation Materials ..... 6	1.12 Slot Insulation ..... 34
1.4 Plastics .....15	1.12.1 Coil Formation .....36
1.4.1 Thermoplastic Materials .....15	1.12.2 Revoiving (Rotor) Winding .....36
1.4.2 Thermosetting Plastics.....17	1.12.3 Stationary (Stator) Winding.....37
1.5 Insulating Varnishes .....19	1.12.4 Dc Armature Windings .....37
1.5.1 Types of Insulating Varnishes For Various Applications.....20	1.13 Lap Winding ..... 38
1.6 Properties of Conductors .....21	1.13.3 Half Coil Winding .....40
1.6.1 Electrical Properties .....21	1.13.4 Concentrated Winding .....40
1.6.2 Mechanical Properties.....21	1.13.5 Distributed Winding.....40
1.6.3 Economic Factors: .....21	1.13.6 Single Layer Winding .....41
1.6.4 Characteristics of a Good Conductor Material .....22	1.13.7 Double Layer Winding .....41
1.7 The choice of a conductor material depends on the following Factors..... 22	1.13.8 Single Phase Winding .....41
1.7.1 Commonly Used Conductor Materials ..... 22	1.13.9 Three Phase Winding .....41
1.8 Enamelled Wire..... 25	<b>2. Rewinding, Testing of Electric Motors, Instruments and Testing</b>
1.8.1 Grades of Copper Enameled Winding Wires .....26	2.1 Method of Rewinding..... 43
1.8.2 Properties of Enameled Wires ....27	2.2 Winding Methods..... 46
	2.3 Testing of Armature ..... 53
	2.4 Insulation Resistance Test..... 54
	2.5 Growler Test ..... 55
	2.5.1 External growler .....55
	2.5.2 Internal growler .....56
	2.6 Drop Test ..... 58
	2.7 Voltage Tester Screwdriver..... 59

2.8	Continuity Test.....	60	5.	<b>Vacuum Cleaner and Washing Machines</b>	
2.8.1	Multimeter/Continuity Test.....	61	5.1	History of Vacuum Cleaner.....	117
2.8.2	Open Circuit Test and Short Circuit Test.....	61	5.2	Types of Vacuum Cleaner.....	125
2.9	<b>Insulation Testing</b> .....	62	5.2.1	Cylinder Vacuum Cleaner.....	125
2.9.1	Insulation Tester (Megger).....	62	5.2.2	Upright Vacuum Cleaner.....	126
2.10	<b>Measurement of Power</b> .....	64	5.2.3	Wet and Dry Vacuum Cleaner.....	128
2.10.1	In a DC circuit.....	64	5.3	<b>Repairing of Vacuum Cleaner</b> .....	129
2.10.2	In 1-phase AC circuit.....	65	5.4	<b>Washing Machine</b> .....	131
2.10.3	Phase AC circuit.....	66	5.4.1	The First Washing Machines.....	132
3.	<b>Electrical Cooking Appliances and Electric Iron Box</b>		5.5	<b>Function of Washing Machine</b> .....	135
3.1	<b>Types</b> .....	69	5.5.1	Types of Washing Machine.....	135
3.1.1	Construction.....	69	5.6	<b>Washing Technique Used</b> .....	137
3.1.2	Electric Toasters.....	72	5.6.1	Working Cycle.....	140
3.1.3	Types of Electric Toasters.....	74	5.6.2	Constructional Details of Semi-automatic Washing Machine.....	140
3.2	<b>Definition of Electric Iron box</b> .....	76	5.6.3	Working of Semi-automatic Washing Machine.....	141
3.2.1	Types of Iron Box.....	76	5.7	<b>Basic Structure of Top Loading Washing Machine</b> .....	142
3.2.2	Non-Automatic Iron Box.....	76	5.7.1	Working of Top Loading Washing Machine.....	144
3.2.3	Automatic Iron Box.....	78	5.7.2	Construction and Working of Front loading washing machine.....	145
3.2.4	Differences between Non-automatic and Automatic Iron Box.....	81	5.7.3	Comparison of Front load and Top load Washing machines.....	145
3.2.5	Steam Iron.....	81	5.7.4	Washing Machine Problems and Remedies.....	146
4.	<b>Water Heaters and Electric Mixer</b>		6.	<b>Electric Fan and Centrifugal Pump</b>	
4.1	<b>Concept of Water Heater</b> .....	86	6.1	<b>Construction of Ceiling Fan</b> .....	150
4.1.1	Types of Water Heaters.....	87	6.1.1	Working of Ceiling Fan.....	152
4.1.2	Immersion Water Heaters.....	89	6.2	<b>Table Fan</b> .....	153
4.1.3	Storage Water Heaters (Geysers).....	91	6.2.1	Parts of Table Fan.....	154
4.2	<b>Coffee Maker</b> .....	96	6.2.2	Exhaust Fan.....	155
4.2.1	Types of Coffee Maker.....	97	6.3	<b>Hair Dryers</b> .....	157
4.2.2	Operation of Coffee Maker.....	98	6.3.1	Types of Hair Dryer.....	158
4.3	<b>Electric Mixer</b> .....	100	6.3.2	Constructional parts of Hair Dryer.....	158
4.3.1	Function of Mixer.....	101	6.3.3	Working of Hair Dryer.....	161
4.4	<b>Egg Beaters</b> .....	105			
4.4.1	The Best Egg Beater.....	107			
4.4.2	Rotary Beater.....	109			
4.4.3	Dough Blender.....	110			
4.5	<b>Essential Kitchen Supplies</b> .....	113			

6.3.4	Hair Dryer Safety.....	161	8.2	<b>Different Methods of Drying Out a Transformer .....</b>	<b>207</b>
<b>6.4</b>	<b>Centrifugal Pump.....</b>	<b>162</b>	<b>8.3</b>	<b>Time of Drying-Out Operation.....</b>	<b>209</b>
6.4.1	The Constructional Features of Centrifugal Pump.....	163	8.3.1	The Qualities Required For Good Transformer Oil.....	210
6.4.2	Working of Centrifugal Pump .....	165	8.3.2	Different Methods of Purifying and Drying-Out Transformer Oils .....	211
6.4.3	Friction Head .....	166	8.3.3	Dielectric Strength for Oil.....	211
6.4.4	Troubles Shooting .....	169	<b>8.4</b>	<b>The Breakdown Value (BDV) for the Oil .....</b>	<b>215</b>
<b>7.</b>	<b>Maintenance of Rotating Machines</b>		8.4.1	Action to Be Taken If a Transformer Fails.....	215
<b>7.1</b>	<b>Types of Maintenance .....</b>	<b>172</b>	8.4.2	Points to Be Attended During Periodical Overhaul.....	217
<b>7.2</b>	<b>Preventive maintenance schedule....</b>	<b>174</b>	<b>8.5</b>	<b>Preventive Maintenance Program ...</b>	<b>218</b>
7.2.1	Annual Maintenance.....	176	8.5.1	Transformer's Temperature .....	219
7.2.2	The Normal Value of Air Gap: It's Measurement.....	176	8.5.2	Maintenance Procedures for the Insulating Oil .....	221
<b>7.3</b>	<b>Removing a Bearing.....</b>	<b>177</b>	8.5.3	Deterioration of the Insulating Oil .....	221
7.3.1	Removing bearings using hydraulic techniques .....	178	8.5.4	Preventing the Deterioration of the oil .....	222
<b>7.4</b>	<b>Fitting Bearings .....</b>	<b>179</b>	8.5.5	Evaluation of the Deterioration of Dielectric Oil .....	223
7.4.1	Maintenance of Bearings.....	179	<b>8.6</b>	<b>Maintenance and Inspection of the Bushings .....</b>	<b>223</b>
7.4.2	Frequency of Lubricating Oil Analysis.....	180	8.6.1	Routine inspection.....	223
7.4.3	Checking the alignment of a directly coupled motor.....	181	8.6.2	Regular Inspection.....	224
<b>7.5</b>	<b>Balancing .....</b>	<b>181</b>	8.6.3	Self Cooling Type Radiator .....	225
<b>7.6</b>	<b>Preventive Maintenance of Electrical Equipment's .....</b>	<b>184</b>	<b>8.7</b>	<b>Maintenance and Inspection of the Thermometers .....</b>	<b>225</b>
7.6.1	General procedure for overhaul of motors.....	186	8.7.1	Dial Type Thermometer .....	225
<b>7.7</b>	<b>Maintenance of A.C. Motors .....</b>	<b>187</b>	8.7.2	Maintenance and Inspection of Oil Level Gauge .....	226
<b>7.8</b>	<b>Common defects in commutators..</b>	<b>195</b>	<b>8.8</b>	<b>Failures and Countermeasures .....</b>	<b>231</b>
<b>7.9</b>	<b>De-greasing.....</b>	<b>197</b>	8.8.1	Causes of The Failure .....	231
7.10	Applying insulating varnish on electrical coils and windings.....	198	8.8.2	Types of Failures .....	232
7.10.1	The Process of vacuum impregnation.....	200	8.8.3	Discovery of the Failures .....	232
<b>8.</b>	<b>Maintenance of Transformers</b>		8.8.4	Internal Defects of the Transformer .....	234
<b>8.1</b>	<b>Action to be Taken if the oil Temperature Rises Unduly.....</b>	<b>205</b>	8.8.5	Internal Defects of the Transformer .....	234
8.1.1	Maintenance and Lines and Bus bar Inspection .....	206			
8.1.2	Points to be checked if the Oil Level Tends to Fall Down .....	206
