ABSTRACT

This study aimed to determine the Level of English fluency Among Grade 12 ABM Students of John B. Lacson Foundation Maritime University-Molo, Inc.

The participants of the study were the 116 randomly selected grade 12 shs students of Accountancy Business Management (Miami, Nashville, Oakland, and Portland) during the first semester of academic year 2019-2020. The data needed for the study were obtained through the questionnaire-checklist designed and administered by the researchers. The statistical tools employed were the frequency count, percentage, Mean and ANOVA (Analysis of Variance) set at 0.05 the level of significance.

The study revealed that the English fluency was important in every aspect of one's life. As for the students, it can determine what future would be. And it was priceless preparation for many professional careers and gives an edge over the others. It was significantly important especially in school, work, government and other. It makes our communication easier and paves a way to become a better and world class professional.
