- 18** **How Does One Get Started with PLM and the Digital Twin?**
We spoke to Jonathan Scott, chief architect at Razorleaf, to determine how to enter the world of the Digital Twin.
- 26** **Could 5G Be the Missing Puzzle Piece for Self-Driving Cars?**
At the Consumer Electronics Show this year, 5G has taken the spotlight as the next big technology paradigm shift. What does that mean for self-driving cars hitting the market in the near future?
- 35** **Going Beyond PID in Hydraulic Motion Control**
Early on, systems relied on basic start/stop and limit switches, but as processing power and speed have increased, electronic industrial system controls have grown to be the more sophisticated option and become ever more capable.
- 38** **Specifying the Right Hydraulic Cylinder for the Right Job**
Designers should understand the key factors that influence cylinder selection.
- 44** **Industrial Motors: How to Get More Bang for Your Buck**
Servomotors and hydraulics are working together for a more precise, power-dense future.
