

Practical Research

For Senior High School

REVISED EDITION

2

Jessie S. Barrot, Ph.D.

Practical Research **2**

For Senior High School
REVISED EDITION

Jessie S. Barrot, Ph.D.

C & E Publishing, Inc.
2020

Table of Contents

Lesson 1	Nature of Inquiry and Research	1
Lesson 2	Identifying the Inquiry and Stating the Problem	21
Lesson 3	Learning from Others and Reviewing the Literature	58
Lesson 4	Understanding and Systematically Collecting Data	100
Lesson 5	Finding Answers Through Data Collection	136
Lesson 6	Reporting and Sharing Findings	193
Appendix		236
Glossary		249
Bibliography		260
Index		264

Index

- A**
- achievement test, 145
 - adoption of instrument, 114
 - alpha level, 179
 - alternative hypothesis, 33
 - analysis of variance (ANOVA), 4, 177
 - defined, 177
 - types of, 177-178
 - ANOVA
 - See **analysis of variance**
 - APA citation style, 80, 81, 219
 - aptitude test, 145
 - authorization clause, 161
 - availability of resources, 24
- B**
- background of the study, 26-27
 - bar graph, 167-168
 - bivariate data, 121
 - Boolean searching strategies, 62
 - boxheads, 166
 - Bubbl.us, 24
- C**
- categorical variables
 - See **qualitative variables**
 - Center for Innovation in Research and Teaching, 4
 - Chicago citation style, 80, 81, 219
 - chronological arrangement, 67
 - circle graph, 167, 169-170
 - citation, 80-81, 219-220
 - types of, 80-81
 - styles in, 80-81
 - cloze test, 145, 146
 - coding, 165
 - complete observer, 152
 - complete participant, 152
 - conceptual definition, 67
 - conceptual framework, 72, 73-74
 - conceptual literature, 67
 - conclusion, 208-210, 212-213, 215
 - conclusion subsection, 209-210
 - concurrent validity, 115
 - confidentiality clause, 161
 - confounding variable, 10
 - construct validity, 115
 - content validity, 115
 - continuous variables, 9
 - control group, 102
 - controlled observation, 151
 - correlational research, 7
 - correlational research design, 102, 104
 - correlation
 - types of, 172

creation of instrument, 114
criterion validity, 115
critical value, 184
critical value approach, 184-186
Cronbach's alpha, 116

D

data collection, 138
data limitations, 213
data-processing, 165
 processes involved in, 165
data tabulation, 165
degree of freedom, 179
delayed posttest, 147
dependent variable, 10
descriptive research, 7
descriptive research design, 102, 104
descriptive statistical values, 178
dichotomous test, 145, 146
dichotomous variables, 9
directional hypothesis, 33
discrete variables, 9
discussion portion, 202-203
distribution of data, 121
double-barreled questions, 141

E

ecological validity, 151
editing, 165
effect size, 109
enumeration format, 34-35
enumeration test, 145, 146
ex post facto research, 7
ex post facto research design, 102, 104
experimental research, 8
experimental research design, 103, 105
extraneous variable, 10

F

fabrication, 170
face validity, 114
face-to-face method, 139
falsification, 170
fish bowl technique, 110
formal definition, 27

G

general research problem, 28
general research question, 28
generalizability, 4, 107
Google Forms, 140
Grammarly, 196
graph, 167-169
 defined, 167
 interpretation of, 167-168
 types of, 167-169

H

Hawthorne effect, 103
heuristics, 107
hypothesis, 32
 defined, 32
 types of, 32-33
hypothesis testing, 183-187
 defined, 183
 approaches in, 184-187

I

identification test, 145
impact limitations, 213
implications, 210
 defined, 210
 types of, 210
 guidelines in writing, 210
independent variable, 10

informal definition, 27

informed consent form, 118, 161

- defined, 161
- parts of, 161

instrument, 113-116

- defined, 113
- development methods of, 114
- factors considered in describing, 114

intact group, 103

intellectual honesty, 170

interest, 24

internal consistency reliability, 116

interval variables

- See **continuous variables**

intervention, 102

interview, 148-149

- defined, 148
- types of, 148

interview guide, 149

interviewer effect, 148

inter-coder agreement

- See **inter-rater agreement**

inter-rater agreement, 113

inter-rater reliability, 116

introduction section, 43-44

in-text citation, 80

K

Kappa coefficient, 116

Kuder-Richardson formula, 116

kurtosis, 121

L

leading and biased questions, 141

left-tailed test, 186

Likert scale, 138

limitations of the study, 212-213

- defined, 212
- types of, 213

line graph, 167, 169

literature review, 61-71, 89

- defined, 61
- parts of, 67
- steps in writing the, 61-71

literature search, 61-63

- defined, 61
- steps in performing, 62-63

M

macrolevel synthesis, 68-69

main section, 140

manageability, 24

Mann-Whitney U test, 122

matching type test, 146

McNemar change test, 122

mean, 178

microlevel synthesis, 68

MLA citation style, 80, 81, 219

methodology section, 126

methodological implications, 210

modification of an existing instrument, 114

multiple choice test, 145, 146

multiple regression, 4, 178

N

natural observation, 151

negative correlation, 172

no correlation, 172

nominal variables, 9

non-directional hypothesis, 33

non-parametric tests, 121

- defined, 121
- types of, 122

non-performance-based test, 146

non-prose materials, 165-170

- defined, 165
- types of, 165-169

non-standardized tests, 145

normal distribution, 121

note-taking, 70-71

- defined, 70
- forms of, 70-71

null hypothesis, 32

O

observation, 151-154

- defined, 151
- guidelines in conducting, 153-154
- types of, 151

observer as participant, 152

one-tailed test, 33

online method, 139

open-ended questions section, 140

open-ended questions, 145

open-ended test, 146

operational definition, 67

ordinal variables, 9

P

paired t-test

- See **t-test for two dependent samples**

paraphrasing, 70-71

- defined, 70
- strategies in, 70-71

parametric tests, 121

- defined, 121
- types of, 122

participant as observer, 152

participant observation

- defined, 151

- roles in, 152

Pearson's r , 4, 171-173

performance-based test, 145, 146

personal information section, 140

Phi coefficient, 122

pie graph

- See **circle graph**

plagiarism, 84-85

- levels of, 84
- guidelines in avoiding, 85

possible risk and discomfort factors, 161

positive correlation, 172

power analysis, 109

practical implications, 210

predictive validity, 115

probability sampling, 109-112

- defined, 109
- types of, 110-112

problem statement, 28

prototyping, 103

- defined, 103
- guidelines in developing, 103

purposive sampling, 109

p-value, 179

p-value approach, 186-187

Q

qualitative variables, 9

- defined, 9
- types of, 9

quantitative research, 4-5, 7-8

- defined, 4
- strengths of, 4-5
- types of, 7-8
- weaknesses of, 5

quantitative interview, 148-149

- defined, 148
- guidelines in conducting, 148-149

quantitative variables, 9
 defined, 9
 types of, 9
quasi-experimental research, 7
quasi-experimental research design, 103,
 104
questionnaire, 138-142
 defined, 138
 guidelines in using, 139-142
 parts of, 140
 types of, 139

R

random sampling,
 See probability sampling
Randomizer, 109
ratio variables, 9
recall questions, 145
recommendation section, 215
recognition questions, 145
reference citation, 81, 219-220
reference list, 81, 219-220
related studies, 67
 defined, 67
 types of arrangement of, 67
relevance, 24
reliability, 116
 defined, 116
 types of, 116
research design, 102-105
 defined, 102
 types of, 102-105
research gap, 26-27
 defined, 26
 components of, 26-27
 guidelines in writing, 27

research objectives, 29
research problem, 28
 defined, 28
 steps in identifying, 28
research questions, 28-30
 defined, 28
 types of, 28-29
research title, 37
 defined, 37
 guidelines in writing, 37
research topic, 23-24
 defined, 23
 factors considered in selection of, 24
research workbook, 222-223
 defined, 222
 questions to be answered in preparing,
 222-223
results and discussion section, 196-197,
 202-203
results portion, 196-197
routing, 140

S

sample size, 107
 methods of determining, 107-109
sampling, 107-112
 defined, 107
scatter plot, 172-173
scope and delimitation, 36, 212
semi-structured questionnaire, 139
significance of the study, 34-35
 defined, 34
 formats for, 34-35
significance level
 See **alpha level**
simple random sampling, 110
skewness, 121

Spearman's rho, 122, 175
specific research problem, 28
specific research questions, 29-30
 defined, 29
 characteristics per kind of quantitative research, 29-30
split half reliability, 116
standard deviation, 179
standardized tests, 145
statistical power, 109
strata, 110
stratified sampling, 110-111
structured questionnaire, 139
stubs, 166
study design limitations, 213
synthesis, 68-69
 defined, 68
 types of, 68-69
summarizing, 70
 defined, 70
 guidelines in, 70
summary, 208
 defined, 208
 guidelines in writing, 208
systematic sampling, 111-112

T

table, 165-167
 defined, 165
 interpretation of, 166-167
 parts of, 165-166
termination of the research, 161
tests, 145-147
 defined, 145
 guidelines in using, 146-147
 questions in, 145
 types of, 146

test-retest reliability, 116
thematic arrangement, 67
theoretical framework, 72, 73
theoretical implications, 210
thesis statement, 29
topical arrangement, 34
treatment
 See **intervention**
treatment group, 102
triangulation, 118
t-test for two dependent samples, 179
t-test for two independent samples, 181
t-tests, 178-179, 181
 defined, 178
 types of, 178-179, 181
t-value, 179
two-tailed test, 33
two-way chi-square test, 122
typological arrangement, 67

U

unstructured questionnaire, 139

V

validity, 114-115
 defined, 114
 types of, 114-115
variable, 9-10
 defined, 9
 types of, 9-10

W

Wilcoxon signed-rank test, 122

Z

Zotero, 61
