# Figures

1.1	Tourism in Asia	5
1.2	Tourism in the developing world	6
1.3	Relationships between leisure, recreation and tourism	9
1.4	The context of tourism studies	19
1.5	Organising framework for the book	39
2.1	Inventory of the supply of leisure in a working class community, Bethnal Green, East London 1925–6	44
2.2	The decision-making process in outdoor recreation	47
2.3	Maslow's hierarchy of needs	48
2.4	The impact of distance and geographical catchment areas on the provision of leisure facilities	59
2.5	Time budgets for males, females and the total population of adults aged 16 and over in 2000	66
2.6	Glyptis' model of visitor dispersion at an informal recreation site	68
2.7	Determinants of tourism demand	71
2.8	The geography of travel risk: Foreign and Commonwealth Office (UK) advice of areas to avoid travel to in 2012	72
2.9	The tourist and safety continuum	73
2.10	Plog's psychographic positions of destinations	74
2.11	The leisure ladder for theme park settings (domestic visitors)	75
2.12	A classification of travellers	79
3.1	A continuum of resources	92
3.2	The UK green belts	102
3.3	The metropolitan green belt in London and SE England	103
3.4	International arrivals in Spain by regional airport	108
3.5	Ferry routes from the UK	109
3.6	A wave analogue model of the implication of changed accessibility for a fixed location in space	112
3.7	Four types of tourism transaction chain	114
3.8	An enclave model of tourism in a peripheral economy	121
3.9	The tourism business district	127
3.10	Model of a tourism attraction system	129
3.11	Model of urban hotel location in west European cities	130
3.12	Types of tourism accommodation	131

3.13	Distribution of public houses of J.D. Wetherspoon	132
4.1	The nature of impacts	141
4.2	Sustainable tourism and sustainable development	143
4.3	Feedback in the tourism system	146
4.4	Relativities of scale in analysing tourism	148
4.5	The influence of temporal and spatial resolution on assessing tourism-related phenomena	149
4.6	Relativities of scale with respect to tourism and climate change	150
5.1	The expansion of Leicester in the nineteenth century	182
5.2	Urban park development in Leicester	183
5.3	Open space designations and deficiency	196
5.4	London Borough of Newham maps: (a) Location of urban parks in the London Borough of Newham; (b) Children's play space deficiency; (c) Areas of local park deficiency; (d) Priority areas for tackling open space deficiency	197
5.5	A systems approach to urban tourism	200
5.6	(a) Tourism, leisure and the postmodern city (b) Tourism, leisure and the postmodern city: the inner city dimension	202
5.7	Functional areas in the tourist city	207
5.8	Urban tourism in China	209
5.9	Tourist movement styles	211
5.10	Observed tourist movement patterns	212
5.11	Perceptions of place	214
5.12	Paradigm shift from SERVQUAL to service dominant logic	220
6.1	The urban, rural, wilderness continuum	235
6.2	Relationship between national, regional and local strategies	245
6.3	Creating different supply chains and local food systems	246
7.1	The relationship between the social construction and physical constitution of nature and wilderness	274
7.2	The wilderness continuum	282
8.1	The cyclical life course of society's approach to coastal leisure	293
8.2	The scope of the coastal environment	293
8.3	Spatial distribution of beaches in California	295
8.4	Evolution of the coast as a leisure environment	298
9.1	Changing state paradigms for leisure and recreation planning in the UK	318
9.2	Frameworks of governance typology	336
10.1	The DEEP process for applied geographical analysis	345

# Tables

1.1	International tourism arrivals and forecasts 1950–2030 (millions)	2
1.2	Average annual growth in international tourism arrivals and forecasts 1980–2030 (%)	2
1.3	International tourist arrivals by region per 100 population 1995–2030	3
1.4	Generation of outbound tourism by region per 100 population 1980–2030	3
1.5	Travel as an export activity 2000–11	4
1.6	Global international and domestic tourist arrivals 2005–30	7
1.7	Categorisations of main approaches to the geography of tourism and recreation 1979–98	19
1.8	Approaches to geography and their relationship to the study of tourism and recreation	23
2.1	Influences on leisure participation	50
3.1	The land use classes of the Canada land inventory	93
3.2	Linton's landscape evaluation scale	95
3.3	Some reasons for government involvement in tourism	122
3.4	The elements of tourism	123
4.1	Positive and negative dimensions of the impacts of tourism on destinations	144
4.2	Ontologies and epistemologies of ecological systems	147
4.3	Assessment criteria for selecting indicators for the Tourism Optimisation Management Model	155
4.4	Costs and benefits of tourism development in Broome, Australia	165
4.5	The impact of tourism on the urban physical environment	169
5.1	Hierarchical pattern of public open space	185
5.2	Summary and explanation of key variables deployed within the recreation resource typology	186
5.3	Basic typology of outdoor recreation facilities in urban areas	187
5.4	The evolution of greenstructure planning in Warsaw	190
5.5	Categories of green space in Warsaw in 2001	191
5.6	Open space standards	191
5.7	Public open space categorisation	194
5.8	Factors to consider in evaluating the urban tourism experience	203
5.9	Applications of visitor management techniques	222
6.1	Visitors and spend in English National Parks (2011 or most recent available)	227
6.2	Changing institutional arrangements surrounding rural tourism and recreation research in England	237
6.3	Summary of advantages and disadvantages of food tourism at the food business level	248

7.1	The development of the wilderness concept in the United States, Canada, New Zealand and Australia	259
7.2	Number and area of protected areas under IUCN Protected Area Management Categories 2003	264
7.3	Components of the wilderness experience	269
7.4	The scientific values of wilderness	270
7.5	Interactions between values associated with wilderness and common disruptive activities	271
7.6	Australian wilderness inventories	277
7.7	Area of the VAST condition class 1 (residual) for Australian states and territories	283
8.1	Illustrations of the geographer's contribution to the analysis of coastal recreation and tourism	297
9.1	Approaches to leisure planning	317
9.2	International tourism policies, 1945 to the present	322
9.3	Tourism planning approaches: assumptions, problem definition, methods and models	324
9.4	The characteristics of 'new' modes of governance	335
9.5	Frameworks of governance and their characteristics	337
10.1	The skills of a geographer	348
10.2	Tourism sector emissions and mitigation targets	355
10.3	Likely consequences of climate change	356

## Boxes

1.1	Producing geographical knowledge	16
1.2	The geography of tourism and recreation outside the Anglo-American tradition: the 'margin of the margin'?	36
2.1	The geography of fear and recreational participation implications for exclusion	55
2.2	Myles Dunphy and the Australian bushwalking movement	60
3.1	Country parks as a spatial recreational tool: intercepting urban recreationalists seeking the countryside	104
3.2	The destination life cycle	110
3.3	Economic globalisation	117
3.4	Towards geographical analyses of hospitality: the geography of hospitality employment in the UK	133
4.1	The economic impact of events	161
5.1	Stanley Park, Vancouver	174
5.2	The evolution of parks and open space in Victorian Leicester	181
5.3	The street	188
5.4	The management, planning and provision of parks and open space in the London Borough of Newham	192
5.5	Tourism in capital cities	204
5.6	Modelling the movement patterns of tourists in urban destinations	211
5.7	The value of urban heritage resources in the cultural economy	217
6.1	Use of the New Forest National Park	231
6.2	Forest and woodland access	239
7.1	What is the effect of World Heritage listing?	266
7.2	National parks and indigenous peoples	271
7.3	Wilderness and global environmental change: the Arctic	288
8.1	Promotion of the seaside resort: place-promotion strategies	299
8.2	Cruise tourism	310
9.1	Tourism interest groups and the public interest	328
9.2	Cruise codes of conduct and Arctic biosecurity	331
10.1	GIS and tourism: a tool for applied geographic research	349
10.2	The future: responding to climate change	354
