## Abstract

This descriptive research determined the profile of the customs administration graduates of John B. Lacson Colleges Foundation (Molo), Inc. Fifty-six (56) graduates of customs administration as a course were the participants of the study. A purposive sampling method was utilized. A researcher made questionnaire-checklist was used to gather the data. Some of the items included in the data-gathering instrument were based from the Questionnaire of Bañas (2003). Frequency counts and percentage analysis were the statistical tools used to analyze the obtained data. Results of the study revealed that generally, the Bachelor of Science in Customs Administration graduates of JBLCF (Molo), Inc. are in 20-29 years old age bracket, females,
