K-Sim Navigation and K-Sim Engine Successfully Demonstrated at VITSEC

From research and development to planning and operation, products, processes and training are increasingly taking shape in the virtual world, much thanks to the growing power of simulation technologies. KONGSBERG's continuous focus on simulator development and use of

new advanced technology enables more accuracy and realism in maritime training. We continue to lead the way with new training solutions within a virtual, yet very realistic environment.

## MEET US HERE:

### CMPA Congress

Montreal, Quebec, Canada  
14-17 February

### 10th Arctic Shipping Summit

Montreal, Canada  
8-9 March

### CMA Shipping

Stamford, Connecticut, US  
20-22 March

### Education, Training & Crewing ETC

Odessa, Ukraine  
20-21 April

### Offshore Technology Conference OTC

Houston, US  
1-4 May

### Crew Connect Europe

Copenhagen, Denmark  
9-10 May

### CANSEC

Ottawa, Canada  
31 May - 1 June

### Offshore Wind Energy

London, United Kingdom  
6-8 June

### ICERS 13

Odessa, Ukraine  
20-21 September

### Kongsberg Digital's Global Simulator User Conference

Haag, The Netherlands  
26-28 September

### IAMU

Opatja, Croatia  
(Date to be confirmed)

### I/ITSEC

Orlando, Florida, US  
27 November - 1 December

### WorkBoat Show

New Orleans, US  
29 November - 1 December

# Welcome to Maritime Simulation Newsletter

Dear readers and simulator users,

I am excited to take on the new challenge as Senior Vice President for Maritime Simulation in the newly established Kongsberg Digital. I'm succeeding Paal Aamaas, who has become Vice President, Business Development in Kongsberg Digital. Through my eight years in this business unit, I have gained a broad understanding of the organisation, our products and customers.

These are interesting and exciting times. Maritime Simulation is now part of the new Kongsberg Digital and I am looking forward to investigating the opportunities this gives our organisation and even more, the offerings we can bring to our customers and partners.

We have had a busy second half of the year, with one of the highlights being our 2016 User Conference in Athens, Greece. It was a great success and I am grateful to our speakers, delegates and Kongsberg Digital staff for contributing. We had around 200 delegates from 27 countries. I enjoyed the week so much: exploring the possibilities of simulation in the context of Human Factors in the daytime, and many good laughs in the evening. Next year's conference will focus on the possibilities of Maritime Digitalisation; which is of course a topic we are discussing a lot these days.

I want to take the opportunity to thank you all for your support in 2016 and to wish you a good holiday and new year celebration.

*Tone Merete Hansen*

**Mark your calendar for KONGSBERG's Global Simulator User  
Conference in Haag, Netherlands, September 26-28, 2017**
