Abstract of the Project Study entitled "Uniform Handbags for the College of Maritime Education Students" in partial fulfillment of the requirement for the degree Bachelor of Science in Maritime Education John B. Lacson Foundation Maritime University-Molo, Inc.

Abstract

There are times where in there are reports of looses of lap tops, cell phones, tablets, books, hand outs or even students' projects. That is because students do not have something where to put in their stuff. In this connection, the researchers made a project study on how to make a uniform bag for the students in the College of Maritime Education.

The researchers made a uniform bag of good quality material. It has a polyester cloth, black in color with blue zipper and measures 10 x 14 inches.

The researchers recommended that in order for the students to have a bag where they can put in their stuff, like books, notebooks, hand outs, cell phones, tablets pencils and pieces of paper, a bag is needed. John B. Lacson Foundation Maritime University –Molo, Inc. should have a uniform bag for their students so it can be known. The bag will carry the good image of the school. It will also be a kind of advertisement for the school to see students carrying the bag with the school logo attached to it.
